### JOINT PART

Joint that is hidden inside to achieve that provides extra 50% space compared with a hinged door. There is no worry about pinched finger since the gap at the bent portion is only 3mm

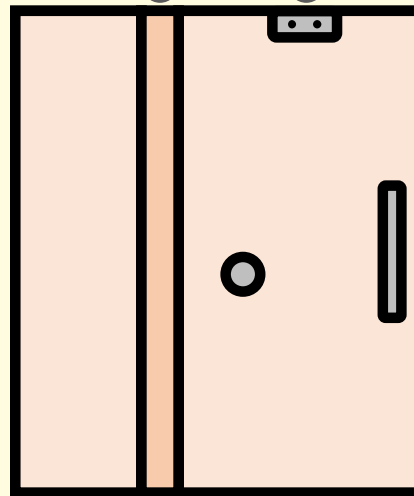

### EMERGENCY OPENING SYSTEM

User friendly door that comes with an emergency opening system to ensure safety when people trapped inside

Door can be opened outwards during emergency

### SMART DOOR DESIGN

Door stays open when not in-use, wheelchair users can enter it easily. Vacancy can be confirmed easily as well

Door comes with sensor to detect open and close.

### INNOVATIVE DESIGN

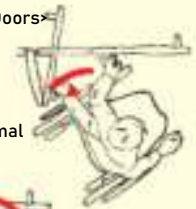

#### < Favolic Bi Fold Doors >

It can be opened and closed from any direction

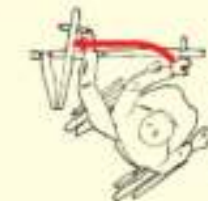

#### < Favolic Bi Fold Doors >

Movement required for opening and closing is minimal

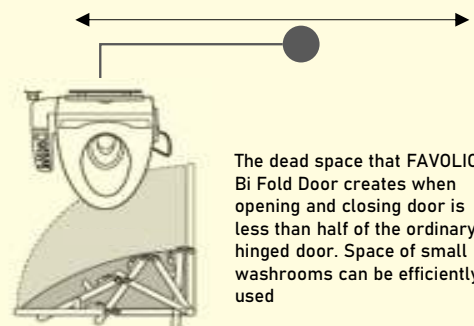

#### < Ordinary Bi-fold Door >

Depending on the direction of force, door may be difficult to open

< Ordinary Bi-fold Door >  
Movement required for opening and closing is big

The dead space that FAVOLIC Bi Fold Door creates when opening and closing door is less than half of the ordinary hinged door. Space of small washrooms can be efficiently used
